

COSMAS ONEN TESTIMONY (Told at the FAVOR guest house to Lily Apostle Richard etc)

My name is Cosmas Onen from Koboko district North Uganda. This is my testimony. I was in Daystar high school in Kitgum where I had reached Senior 5. That is where I stopped. I did not continue. When I was in school I befriended another boy called Yumba Sokiri. He was from Democratic Republic of Congo. We were best friends and did a lot of things together. One day, we organized to visit his family. So I packed my bag, he did his and we left the school, went to the taxi park (bus station) where we could get a public vehicle to his place.

As we walked along the way to the taxi park, he picked up a piece of stick and told me to hold it in my hand. It was an ordinary stick and I did not know that it would do something to me. So I took hold of the stick and immediately, I was transported to some dark place I could not tell. It was as if I had blacked out but was conscious.

It was around midday but I found myself in this very dark place. There was nobody and total silence. I could not hear anything. I was stranded. There was nobody there. I could not see anything at all. The harder I tried I could see nothing. I started to call Yumba Sokiri, but nobody answered me.

Panic overwhelmed me and after a while with nobody answering, I gave up. I knew I was going to die, or was dead. I did not know the LORD at that time. I did not know how to pray. I was used to a life of escaping school to go to the disco [local night clubbing. It is he who had always discouraged me from praying. He wanted nothing to do with prayer when we were in school. I had no problem with that because in my own family we did not even like prayer either.

After a while, wondering where I am, could not even find the bag I had carried with me, I got tired. I started to ask myself, Where am I right now? After what seemed to be some hours in this darkness, I suddenly found myself in a very nice looking place. It was as if the sun was shining above me but I could not quite see it. It was as if it was shining through water. What looked like the sky above me was all water. I could see fish swimming above me, it was as if I was under water.

I had no clue what was going on. Lots of fish were moving around above me. I began to ask, Who has brought me here? In that place the ground was very smooth. There was nobody there, no sign of any human being.

Then I heard a voice from a distance. I tried to find out where the sound was coming from so I could go in that direction so they could show me the way out. I knew I am in danger. The environment was so different. It seemed that it was a world that was under the water.

For us on land, when we look up we are looking at the sky, but there it was like a ceiling but lots of fish and lots of water. As I walked toward that direction, I found some creatures. Their heads were like a human being and the body was like a frog with four legs. They were in a line. One pointed to me the way I should go. I thought they are showing me the way to get back to school.

When I started moving that small way, I reached a certain creature; it was a man with four hands. Two up in the usual place on the shoulders and two on his waist. He pointed to me to go in a certain direction. These creatures were all speaking to me in Acholi language (the main language of Northern Uganda)

The man showed me the way, I started to walk and when I reached there, I got a certain, very gigantic humanoid creature. He was seated down but had 12 heads. Some of the heads

began to ask, Who brought you here? What do you want? I said, I don't want anything I want to go back where I came from now.

Before the creature could answer me, that friend of mine Yumba Sokiri arrived and he said, Boss, this young man wanted what I have right now. I did not know what he was talking about or that he was a member of those people. As far as I knew, nobody from school knew those creatures.

After he told his boss, the creature whom I found out, was called Akim the one with 12 heads, Akim gave me the name Grave Digger and the number 1032. He stripped me of my clothes and gave me other clothes. He anointed me with some oil and then "blessed" me with powers and some tokens. They taught me a couple of things and then they gave me some gadget that looked like a phone, some various powders to use and then they suddenly threw me out of that place.

When they threw me out I found myself back in the school, on my bed in the dormitory. My fellow students ran away from me because they did not know where I had appeared from. I discovered that I had been absent from school for a week and everyone had been wondering where my friend Yumba Sokiri and I had disappeared to. They were surprised and went to call the dorm-master saying, The boy who went with Yumba Sokiri has returned.

The dorm master was called Abdu-Majid. He was from the tribe of Lugbara from West Nile region but he came from Arua. He taught at our school.

When they called him he started to ask me, Where is your best friend? I informed him that my best friend Yumba Sokiri had said we should visit his family but he had disappeared from there and I did not know where he was. I was asked where I had been, I told him, I was just sleeping. He called some other teachers and they tried to ask me where I had left Yumba Sokiri.

I had been anointed with some demonic powers there in that place under the water. They had anointed me from down there and, they gave me some things to protect myself from the enemy. One of them was a certain sign that would make me disappear. All I would do was say where I wanted to go and then make that sign, and I would be gone.

As I was not forthcoming with information about the disappearance of Yumba Sokiri, I could not say where his home was or what had happened the past week of our disappearance, they had to call the police. It seems that when we disappeared the school had to report the matter to the police station.

I became fearful and sneaked off. I did that sign and immediately, I disappeared. To this day in 2014 since 2008, I have never gone back to the school. I left all my luggage in that school never to return. From that time onward for the next six years, I became an increasingly powerful human agent and servant of the demonic powers that resided under the waters, headed by that 12-headed demonic power Akim, until on the 16th May 2014 when I was finally delivered from those powers of darkness.

Now, I can say, from the time I disappeared from school, I came to Gulu. I started to stay here and work with the demons. I developed deep hatred for some of my friends and especially my parents. I always wanted to have them killed but somehow I was stopped. My main job was to kill as many people as possible as sacrifice to the kingdom of darkness; through road accidents.

Innocent people were killed in road accidents through my powers. The food of those demonic powers is human blood and it had to be in constant supply. Let me tell you, the accidents that you see happening in this town and in various other places are not the work of the LORD.

I was never a spiritual person all my life and the family I came from were resistant to GODly spiritual things. Even so, I had heard some people say that if GOD wants to take you, you can die by road accident when your day finally arrives. That is not true. GOD does not cause accidents or even allow people to die in that way. But these people who die by accident they have been taken by thee powers.

The demonic powers had assigned me to do the work of causing accidents. When I left Koboko for Gulu I was not alone in creating those accidents. From under the water I had been interviewed and trained by Akim that 12 headed giant creature. He had named me Grave Digger and told me that my first assignment was to kill 180 people. That is how I got the people, through accidents.

One of the tokens I had been given apart from the powders and change of clothes, were two crosses. One was green the other was red. Whenever I spotted a vehicle with lives I wanted to take, I would simply stretch out that cross in front of that vehicle and it would have the accident. Whenever I needed some powers, I would also stretch my hand toward that green cross on the wall in my house, and draw out the powers while, any time I wanted to kill, I would raise the red one before the vehicle and it would either overturn or collide into another vehicle, or even hit pedestrians to death.

could not see well so when I saw someone moving I would use the green cross to see far places. Then when I was in a prayerful place the green cross would be used on born-again people. The red one I would use on those who are not born-again. When I used the green cross on a vehicle with born-again people, I realized that when they started the journey they would pray and they would avert the accidents. My powers just never worked on them. A bus would be carrying 60 people in it but if a person who is born-again was in that bus that I was attacking, they would not get killed. The prayers would cover them with the blood of Jesus and when we were under water that person could be covered. We could not touch them.

When you pray without faith, your prayers cannot go anywhere. At times there are demon agents who would come and capture peoples' prayers and they could not get any breakthrough. You can go to a church for a year but anything you pray for does not work because of lack of faith. We would capture those prayers. When you pray without faith your prayer will never anywhere.

When there is prayer and people pray effectively, they were covered by the blood of Jesus and nothing could harm them. When we tried to go there we could find ourselves thrown so far away in the spirit. On the other hand, you can pray for 15 years and have no peace because you pray without faith. Some people are in church and they are thinking about their own things while prayer is going on. Their prayers go nowhere

The big demon Akim and his other demons had wings and sometimes they would fly up in the air to stop the prayers of the unfaithful. There are people who prayed and would say that GOD did not answer but it was not GOD, it was their lack of faith.

I watched people blame the vehicle drivers or the motorbike riders for the accidents. They would think that something was wrong with these drivers to cause such accidents. It was amusing for us because we knew we were the ones who caused all those accidents that killed so many innocent lives. Sometimes we would cause the driver to see as if there were no people on the road and he would drive through them and kill. All of this was mind-control from the kingdom of darkness to cause death and destruction.

My initial territory of operation was an area called Post Office to a place called Kafu. There I caused many accidents. Many people call some parts of roads “black spots” because of the number of accidents that kill people in those places. It is the work of demonic powers; and when I was operating in the kingdom of darkness I led a legion of them in this evil work.

When I started my duties for the kingdom of darkness, I was given the souls of 250 people who had died in accidents to do the work. I would deploy them to different places.

I had plenty of money but could do nothing with it. I could not use it at all for myself. I simply used it to seduce girls in the night clubs or bars or just give it out to various people. If I could have up to Ush 5 million in the house but could not spend it on anything except the assignments I was given.

How did I get these souls? I would go to a night club or bar, and seduce a girl, or befriend a guy. When I did that, I would get their phone number and save it in that gadget which looked like a cell phone. Then I would get them to receive some money from me as some sort of loan. That person became marked for death. It also had a pocket mirror which, when opened also contained some powder that I used as a source of power for seduction etc.

When I needed that soul, I would call the person and ask the person to give me back my money. Once I have dialed that person’s number, their card was up and something would cause their death. Either they would fall off a boda boda, or get hit by a car, fall sick and die but whichever way, they would simply die in a way that was easily explained.

I did this for about 2 years and had caused the deaths of 400 people whose souls I took under water to Akim. With time, my area of operation was increased and I could operate in a larger and larger area.

Akim the 12 headed demon boss loved me so much because I was obedient and followed every instruction to the letter. He gave me more power to command demonic agents from all over the North of Uganda. Whoever wanted powers from the under-world for success in business, success in the work place and favor with bosses, fake pastors and church leaders who wanted powers of miracles and signs, and to draw people to their churches, would come to me. We would give people money that was from under water. Once I “anointed” it with some powders, nobody could detect if that money was fake and it could be used. I helped criminals who wanted to rob people and not get caught. I even led in such robberies in houses where people would wonder how we were able to get in and steal and there was no sign of break-in. We used spirit beings to do these robberies.

Some of these people who are pastors do business here in Gulu. They could go underwater through me. They could get power from me to operate their ministries. The reason why that demon Akim gave me so much power to rule in the north of Uganda was because I had taken more lives than any other person. There were other human agents too but I was the most effective and powerful among them.

As my power and influence grew, the demons began to ask me to sacrifice my father and mother so I could get even greater power and influence. However, I refused to take them under water as a sacrifice. I loved them somehow. So they told me to bring the souls of 20 people within a day to replace that sacrifice of my parents.

So I did it through accidents. I had power to command at least 400 lost souls in my killing expeditions. Any lost soul that died; those who were not born again, would be taken captive under water and used as slaves there.

When I was working as a devil agent, we used to be taught that the day will come that judgment will face the world. When we are out we must be covered with demon powers so we are always ready because on that day satan would triumph over GOD and all who did not worship the devil would be destroyed. It was all the lie that we were fed in the kingdom of darkness. We saw ourselves as victims and satan as a victim who would one day overcome GOD.

Whoever wanted to go to draw powers from the kingdom of darkness, I was responsible to get them there. Even if you have 100 or 200 cars I was in charge of giving you power. Sometimes I stayed in meetings under water and there were only four people. At times we discussed the politics of North Uganda.

When I finally got a wife, the demons wanted me to bring her as a sacrifice. I refused to do that so they said I should bring 15 souls within a day to replace that sacrifice. Whenever I refused to give a sacrifice they asked for, I would have to replace it with other people's lives in exchange. I also knew that I had gained a lot of power and influence in the kingdom of darkness and I could argue with the demon boss Akim. I knew that they valued me so much and could do nothing to me because of the blood of people whom I had killed was so much. It was like water in the underworld.

When the lost souls were taken they were chained under the waters and trapped there. It is me who put them in the chains. I would take them to the road side, sometimes you find when a powerful pastor or very spiritual person passes that road then it would disturb those spirits so much. They would come to report that there is a certain powerful person who has passed the road and they could not work. So I would come to see who that person is. I find that it was a powerful pastor who preaches the true gospel or a very strong Christian person spiritually. They got riches in a godly way.

One time there was a pastor who brought the name of Francisco (Onen of Favor of God) so that we could kill him.

I tried every method I could think of to kill Francisco; one day it was a tyre burst on the road, but he survived. Another time it was an accident but he survived. We tried many things but they failed. He can even testify of those accidents. When I became delivered in the House of Prayer I confessed to him what we had tried to do to him. I had not wanted to attack Francisco but I had been instructed to do it so I tried. I was afraid of him because he is a man of prayer and true faith.

There are people who own good vehicles like big buses who got their wealth from under water. I tell them to stop that business to prosper in ungodly way. One pastor has one bus, it happened two times that the bus got accidents. I was the one in charge of those accidents. Let

me tell you don't take me like a bad person. As I talk I am born again. I don't need those things in my life again. Many times when I tell my testimony they fear me and think I am bad person.

When I talk they think I am the one who caused all family deaths and am responsible. There are some big, big pastors preaching gospel from Zambia, USA they get powers from the devil here. Before they even reach here, I am informed that they are coming. Then they come deceiving people, and when they finish the mission they go back home. We have pastor from Zambia with power from devil. When they come here they don't pray with all heart to God. They preach the word but they are working with something else. They preach the word very well but are worshipping other things. Before these pastors pray, they bind the prayers of all the people. They block your prayers. You pray in vain and find no answers except when they start their demonic prayers. If you are not careful, you will never understand that preacher is a devil agent. On the pulpit he will do things to stop your prayers. He may raise his hands and he is just casting spells and your prayers are nullified. So you have to always go to them to receive answers to prayers.

When people are hosting a powerful servant of God I would be informed and then I prepare to fight against the meetings and those servants of God.

When they come there is serious battle because we get this knowledge from under water. Sometimes we do not know how powerful a servant of God is so we are not prepared. But when we see the power, we reinforce ourselves to attack him. The demons know some things before they happen. But where our knowledge ends is where Satan begins. Where the knowledge of Satan ends is where GOD's knowledge begins. He cannot defeat GOD. He cannot overcome us.

So I am telling you this story I want you to understand and use it. You can apply it and take it seriously. But I am born again, with all my heart, there are some people working like devil agents. Many are disturbing me but they cannot touch me now because I am covered in the blood of Jesus.

Today we find demonic agents in the churches too even when there are Christians but if people don't pray they are attacked by demons. We had two people doing gospel songs, but those singers are worshipping the devil. They hold 3 fingers and circle to show the triple six sign for the devil. My code was 1032/666. That is the number I was using.

I got into the work of being a demonic agent by coincidence. I did not want it nor did I know anything about it until I was tricked by Yumba Sokiri. I was only 17 years when i started. I did not intend to go there or solicit for wealth. But I never knew I would reach that level. I was deceived by a friend who took me there and I worked for six years until now I got born again.

I had a motorbike. I would go riding around all night looking for people to sacrifice and take to the underworld. I mentioned that every day they gave me 5 million Ush so that I would gather people. Buy them beers, spend on them lavishly, lend them the money but all of that was to just lure them into giving me their numbers and assign them for death.

When you receive that money that day he wants pay back he presses the number looks at your picture and puts some of that demonic powder on the picture and you will die where you are. You may feel like you have been stabbed by something, you may be riding on a motorbike or in a car and you have an accident, or you may fall down somewhere, but you will just die "accidentally".

Some people die sudden death because they buy products that are from under the water. From clothing to electronics. Sometimes they are t-shirts with symbol and sign of devils, you see something like a skull or snakes, fish etc... sometimes you find some had head of human being but body of snakes. You find funny pictures on those t-shirt, all those thing are made from under water.

You find those artist from America, they worship devil through their art and they don't know. They are deceived. Then they get involved with things. We have some youth who like those kind of clothes. But when they do, makes sure your soul is trapped under water. When you wear those things they take them as art but its demonic.

You will find that you will remain alive but other people die because you are wearing those things from under water. They are written made in China and Taiwan but we do not realize it was from the water. There are things they made from there written 666 you find that one who uses them disappears or when you put headphone you feel pain in your ear. That headphone is draining blood from you. You feel pain in the ear drum and you pay back yet you bought with money.

When I was working with demons, sometimes we come to where people are gathered but they do not realize I am in their midst. I was spying on them. I had powers to make me disappear. Sometimes when you have an enemy and he has sent me to do something harmful to you, I will come to you, hear everything you are saying. If I wanted to do anything, even if someone had closed the door If I wanted to pick up their phone or computer in the bedroom or money I would do it and nobody could see me or know we have come in.

Sometime we caused some people to lose jobs. For example you work in bank and your enemy wants you to lose your job. They will send us. We can come in and spirit-rob the bank of 50 million shillings and you are the one responsible. It means that you would automatically be fired and put under investigation. You may even be arrested. Sometimes people would get arrested. Some people work in the district office and you find that he was sent by the devil agents to interfere with the work. We were involved in all such activities.

That is how I worked when I was sent. Sometimes a man and wife sleep in a house. When he is set to break the relationship, even if they are wedded, I come and can possess that person and even if you are living a peaceful life, you begin to quarrel with your spouse. They would have fights until they break up the marriage. All this is part of the work that I did.

I would enter a house with the spirits that I had deployed under me. I could open doors and windows and carry everything outside without anybody detecting where I entered through and sensing that we had come in.

Sometimes you would hear people say that they heard a tortoise speaking or they saw an animal in the dream that spoke. I could turn into any animal

My wife and I got a baby. When my wife began to rpay she was born again, she had one child, I was told they need that child. If I refused then I must present 15 people within a day I refused and said that I would give them 10 souls. I got the 10 killed and brought their souls. I was left alone for a while. But they started to make demands for my wife and my child again. I refused every time.

Sometimes I would find my child laying on blood. I could not tell where the blood came from. Even when grandma came she would not understand where the blood came from. She

was not born again. Sometimes when I came they would say “this thing is the work of the devil” and I know it was true. One day they even came up with the decision to go to the witchdoctor to check on the child.

Whenever grandma came asking why all these things were happening to the child I would deny any knowledge. Grandma would say now we must go to the witches. Sometimes before she could go to the witch, I would go ahead of her and stop her on the way with any thing that could hinder her. Sometimes I would go to the witch and bring distraction so that when they arrived I had already accomplished my mission. Soon as she arrived at the witch, he would say he is no longer doing any consultation and was very tired. I knew where the challenge with my child was coming from. I was under pressure to sacrifice that baby.

I had more power than the witches because I was the one whom they could come to consult for more powers from under the water. I even managed to kill one witch.

Those days, people normally say Kony was in bush fighting, but sincerely he is under water. What is in the bush is spirit of Kony. It was a spirit disturbing the government. Even some top people big people in government know he is not in the bush but they were fighting against him because it was a source of business and getting money through that war.

The people who are killed by Kony their blood was used to secure his power, and those killed by these big politicians because of sacrifice for political power, all their blood is used to secure the voting process. They take that blood to the witches and it is used to bewitch people.

When grandma tried to work with witches in vain, that resulted in calling born again people to come and pray. Whenever they come to pray, I enter with them in the house. The first thing I do was lift up my hand and waving the place to stop and bind all prayer. Their prayer could not do anything on me until they get back home and say there is nothing wrong. Sometimes we are seated like this, I bow my head but my spirit is working elsewhere. It has gone somewhere doing some work. (Astral projected and soul travelled).

Sometimes I am sleeping with my wife but it is as if she is with a dead person I am doing work deployment, she was sleeping like, with a dead person. I was deploying and monitoring demons and lost souls and check on them how they are doing in the field. Whenever they deploy staff we have to see and check. I could stay for a week without eating anything because I had eaten under water. We just drank human blood. I could stay with that for one week. I feel no hunger. When I am asked to take something I say I am satisfied.

In my daily motorbike riding in Gulu I don't carry people but my major work was to kill people. Every day I decide to knock 15 people. Some end up dying some survive. But I could not be arrested . I had a lot of money I could bribe the police. The devil knows people love money. The name money has meaning. That name I was given by the demons. I know a lot concerning that. I am writing a book concerning all of that.

The Christian people came to pray for me. By the time people pray very hard, I find that prayer is going nowhere, they begin to say, This man is free nothing wrong with him. but a tortoise would appear that they would normally hear it saying, This child is mine. Then they stay few days and then again say let us take him. When they realize we have to capture that tortoise that thing disappears. When I become aggressive and violent I chase people away.

What made me come to the LORD? The day I got saved, I had made an agreement with the demons. They had really insisted that I sacrifice my wife and child. I insisted that I would not sacrifice them. I was told to get 400 people's souls in two days; and if not they must take my wife and child. The enemy will always give you an assignment you cannot accomplish. Still I accepted to get 400 people killed. I began to ride around the town on my motorbike to start the assignment.

By this time I was in charge of all of North Uganda so I could go far and wide looking to destroy lives. I had only two days, I went to Lira, Apach, here in Gulu and informed every devil agent in my territory to work hard and get as many souls as possible killed so I could take them under water. I began moving around Gulu looking for 400 because these demons knew I could get them. I only got 5 people in Gulu. I went to Kitgum and got 6 people killed.

The first one was the bus got an accident and then another, a double-cabin crashed into a Land cruiser and six people died in total in the two accidents.

I looked around Kitgum town, there were no more lives, I began to go to Kiradongo district. In all those movements from Kitgum, Pader, I got 80 people killed. Some of the deaths were from those people whom I had given money and then saved their numbers in that phone-gadget. I just pressed their numbers and put that demonic powder on their picture, and they died immediately wherever they were.

First day went when I had only 80 people I got Akim the 12 headed chief demon and said to him I cannot get the people you assigned. I was told, if you want to save your life let your wife and child die and then get 200 people. I started to look for big buses that carry a good number of people. I came to the main Gulu-Kampala road in place called Palenga.

There is a forest near there and that place there are always accidents. It is also the place where I used to receive the people who wanted to go under water for powers. I would park my motorbike there and then a car would emerge from the bush and take me with whoever I was with to go underwater. It had no driver.

Whenever I got to that spot in Palenga, the car must appear and pick me up. When I had the assignment of killing the 400 I had only 80 killed. So along that road with vehicles coming from Kampala or going that way, there were many big buses. I stood along the road and a bus called MEWA was going to Kampala. It crashed at that spot and 7 people were killed. So there were only 87 lives.

Then I went to Pakwach and a GAAGA bus collided with a Lorry trailer; there 10 people died. That brought the number to about 97. I left that place and went to Kafu and there was a KK bus going to Kiradongo district. It had an accident just after the hospital and 7 people died. That was about 107 people who were now killed.

I went to report my progress. Akim the 12 headed chief demon said that there were remaining 100 lives that would keep him alive but his wife and child had to die if the other 100 were not delivered to the underworld. He said, Don't struggle to get more people, just bring your wife and child. I told them I had worked very hard to get the 107 and began to quarrel with Akim. I even offered to have them kill me instead but they said no. He said, you are a very good agent we cannot lose you. What we want is your wife and child. If we take your wife and child you will become richest, most powerful man in Gulu district. Nobody can threaten you.

I said I did not want my wife and child to be taken and to remain, they said then the price for that was to get the remaining 100 souls. I went on the road to Sudan. There was a bus going to South Sudan. It was called LONE Express. The bus collided with a pick-up truck that was carrying 10 passengers, 4 died instantly. Then from there I went to Keyo and got a motorbike to kill a woman who was with her child. They died and the number rose to 106. Out of all my soul travels across the land, I could get only 106 souls. The deadline was fast approaching to hand over my wife and child or get all the souls required. By 9pm in the evening that is the time they will take the child and wife. My time was up.

I had to get my wife and child to the under-world as a sacrifice. On that same week, there was a conference going on at the House of Prayer (run by FAVOR). I had been acting so strangely during those previous days, that my wife had left me. She was a born again woman and she sensed something was very wrong. She knew I must be possessed. She had gone away to her mother's house.

Every day the demons would warn me that they were going to die. She was attending that meeting in House of Prayer at Lunch-hour. When she went there, there was nothing I could do to her. I knew I could not get any more souls, I had tried the best and accepted that I would take her and the child as a sacrifice to Akim.

I think she realized that she was in some grave danger so she was constantly in the House of Prayer for the meetings. When I realized that she was going to be in the House of Prayer for Lunch-hour, I went home, picked every single token of power that I had in the house. I needed to fortify myself very well because the House of Prayer is one of the places we are very afraid of going to. FAVOR was one of the ministries we never want to tamper with. They were people of prayer.

So I picked that phone-gadget, I had some specially designed red clothes; a shirt and trouser that I had got under water. They had powers, I had some charms that I put in my pockets, and the powders that made me disappear. I took the crosses and went to the House of Prayer so I could take my wife and child away from there back to the under-world as sacrifice to Akim. What would happen was that I would have taken them with me to that spot in Palenga, and the vehicle would come to spirit us away. On land, they would simply have got lost. Nobody would have been able to trace where they were.

I got to the House of Prayer for the Lunch-hour meeting. In my assignments the first thing I would do when I got to such a place was to look around and see if I could spot other demon agents. They all had a symbol on their back which was visible to each other but not the regular people. It is a green sign that looks like a cross.

When I got there I looked around and there was nobody who was an agent of the devil. People were in deep prayer. I could not reach my wife. Out of the multitude that was praying in that place, it was the power of two people's prayers that was hitting me hard. It was the prayers of Francisco and another Pastor called I think Kalogoi Kayesu from Kampala. They were praying so hard and I was weakening.

My wife saw me in the building when I had entered. As I was trying to walk toward her, every person I would pass would fall away from me. I had fortified myself with demonic powers to try to withstand being in that place. Then she saw me advancing she run to the other pastor

from Kampala. She said to the pastor, My husband has dedicated me to the devil now he has come to pick me up and take me away.

The pastor asked, where is he? The pastor then saw me. I put my powder in the thumb. I had put some on my thumb and on my feet. The one in the thumb was finished because I would lick on it to draw power. I began to lick the one on my feet. Nobody could touch me. When I got to the pastor, before I could do anything, the pastor began to rebuke the demonic powers that were working in me. He began to cancel their power by the power in the blood of Jesus.

Do you know that whatever you do, when you call on the name and the blood of Jesus the demons must leave. When he cancelled the evil spirit powers with the blood of Jesus I had fallen on the ground and was writhing and wriggling like a snake. Some of the things I write I was seeing in the spirit but you could not see them as a regular person. All you would see was me manifesting them. However those who were spiritual like that pastor, could see also the demonic powers that were in me.

I had been trying to turn my wife into a frog but I could not do it because all the powers were coming out of me. I began to fight with those who were trying to hold me down. I am not big, I am [about 5'2" and very small in the body] but I was so powerful. I fought those ushers who were trying to hold me down. Many people had come to that lunch-hour meeting. When more of them came to grab me, they could not get hold of me. I was so violent, so powerful when I stretcheed my hand out at them they would fall back all over the place. It was like a massive wrestling match.

I fell to the ground as prayer went on and began to writhe like a snake. Nobody could come near me. I was too aggressive and then the trouser I was wearing began to turn into snakes. People began to run away. The ushers who were there saw this (one was translating he was present at the deliverance and confirmed the events).

People who had little faith even run completely out of the building but those who had faith continued to pray. Such a thing had never happened in Gulu. Nobody could believe that such a thing was possible but there it was right before their eyes. It was happening to me because I had come to pick my wife and child from that House of Prayer. I managed to break away at some point and run outside the building because I was running out of powers. I went outside and removed the tokens in my pockets and dropped them but the pastor were still praying. I fell again and my powers were really getting finished.

My wife came toward me to check in the pockets and found no more tokens in there. Somehow she knew I used to put those tokens of power in my pockets. Now I had thrown the things outside the source of power was no longer there. She told the pastor that even if they prayed for me and the tokens were not destroyed, then it would mean nothing because I would go and get the tokens of power again. She told him, that if the tokens were not on me, then I must have gone out to hide them. She said, Maybe when he run out he hid something somewhere, please let us go and check.

They went outside and found the tokens. They lifted it up and brought it in. The people who were holding me down began to fall. My whole body was so dirty because I had been writhing on the floor. As the pastor was praying I felt like I was being burned with hot fire especially when the praying people were holding me down.

The pastor went with my wife picked the tokens and some petrol was brought in so they could burn the tokens on the pulpit. I was layin down. They set the tokens on fire, but they were not getting burned. However, my clothes began to change into frogs, and snakes, and into many other creatures. Some people run away because they could see this and were so terrified. It was a terrifying sight to them.

When I tell you, you may not believe it but the best person to ask and consult Francisco. He can tell you. The people who were there on that day, this translator was there, they all saw how I was getting delivered. When they continued to burn it and pray and call on the fire of God to burn it, and the fire soon began to consume those tokens. When they had finished all the prayer, and the things were burned, I was set free from all those demonic powers.

I finally got up and found it was as if I was dreaming. I never knew what was happening. I was told to kneel down so they pray for me. I knelt down and asked, What is happening? I told them I did not know what was going on. I was prayed over and I accepted the LORD Jesus in my life. I was asked to go and sleep at the pastor's house. I went to sleep there and they went back to the church. Until today I am continuing in my salvation. I am as you see me and this is how I got saved.

Since that day, the demonic powers have been trying to revenge against me. My life has been in torture and they do it in many ways. Some normally come in the form of demonic agents or as human agents. They come to threaten me and say, Stop that stupid praying and testimony of yours. Don't interfere with our work or else if you want us to work for you, accept that we pay you money, and we can continue with our work, and you can continue with yours, just don't interfere and speak about us.

Some of them normally come and stand in our midst, and begin to give me some money. So when they come they irritate me and I am like a mad person. Sometimes they come and attack the child trying to kill it but I believe that nothing will harm my child in the name of Jesus. When I carry the child and pray for him he becomes well. This has happened three times. As I talk today, the child's body has been swelling as if it has obesity. They try all treatments in hospital but find nothing is wrong with the child. But I know it is the devils fighting against that child.

Sometimes when I am in the bedroom they come and knock the door to my bedroom. I will hear a voice saying, We have given you two days to return to us or we will kill you. I pray in the name of Jesus and nothing harms me. For me, I have nothing except the LORD. I did not finish school and have never had work except to be an agent. I started when I dropped out of school in S.5 (Form 5 or year 12) and I have served the devil for 6 years.

There are some people in Gulu who are demonic agents and some are pastors, others have shops and businesses here in Gulu. They always see me and try to intimidate me that they will kill me. Sometimes they will call me to say, Do not continue with your testimony or we will kill you. I say that there is NOTHING impossible with my GOD now. I wanted to see them change because I know that there are some who do not realize what they are doing is wrong. You may decide to get wealth and power from the ddevil but he will not give you more than five years. You must sacrifice one child, parent or your wife or yourself. You will end up dying but you cannot go more than five years before you have to start giving a very meaningful sacrifice to keep alive, wealthy or powerful. I was required to give my wife and child.

The enemy will keep increasing demands to keep your wealth or power until he clears all your have in the family. That is why I am urging all demonic agents and those who draw power from the under-water to turn to the LORD. The devil has nothing for you and his power is not greater than the one for the LORD.

As I talk the people I was working with the ones I was in charge of deploying, because of prayers and my life, two of them are arrested in jail. They were criminals and I had given them powers. They could not be arrested when they committed crimes. Now I am no longer supplying them with the powers, so the police could arrest them and they are in jail.

When I got saved I was given four pairs of clothes. Sometimes I find the clothes are missing I don't know where they have gone. Then after two days, they are returned. When they are returned, I bring them here to the House of Prayer to be prayed over then we burn them. Even this shirt I am wearing, you can see the shirt pocket has been ripped off. One day I was praying and one of the devil agents came to arrest me. He grabbed me but managed to get the shirt pocket and ripped it off. Since I was praying he could not get me. that is how this shirt was torn here [no shirt pocket]

Whenever I pray, I am sure that devil agents will be there. Right now I am revealing their secrets of the under water and they are not happy with me. They are looking for any possible way to attack me. I am always in the House of Prayer praying there. They do not have any power or ability compared to GOD that is why I am still alive today. I believe and have all my hope in GOD, what the devil wanted me to do cannot glorify the LORD

Prayer by Apst. Richard

Father in name of Jesus, the only Name on earth and in heaven, the Bible says every knee shall bow and every tongue will confess that you are LORD. You came to destroy the works of the enemy and no power from under water, no power from the air, no power from the land or the second heaven can be greater than the power of Jesus. I call on the blood of Jesus, the blood of Jesus to seal everybody here. I call upon the blood of Jesus to seal this young man who has given his testimony, his wife and children.

In the name of Jesus devil you were conquered more than 2000 years ago. No weapon formed against them who serve the LORD shall prosper. No weapon shall prosper against us. Jesus said that he came to destroy the works of the enemy and this man is saved by the grace of the LORD. No power can collect or connect him back to the underworld. Now I put a hedge of fire around him. The blood of Jesus to surround him, angels of GOD encamp around him like Daniel. Whatever has arrested his blessings, his prayer in the name of Jesus, I say you are defeated, every power that may intercept the prayers to reach heaven we pull down, tear them and crumble them in the name of Jesus. We soak ourselves in the blood of Jesus and this testimony, every step we take as we leave with the blood of Jesus. Amen.

Continue in the LORD. Luke 9.1 those are words from Jesus. He gave the disciples power and authority. Satan was not given power and authority. He has fake power. Jesus gave us power and authority so you were bought with a price. In Isaiah 1.18, though your sin is scarlet He washes you clean You are no longer an old creation. You are in another covenant and the

evil ones weapon is fear. He overcomes you when you give in to his threats and intimidation. He tries to copy the original things GOD made. When he rebelled he was thrown down and he had a few secrets from the heavenly place which he uses to intimidate us. But he has no authority. He knows he is already condemned. The more you walk with the LORD the more you overcome.

The Bible says they overcome the devil with the blood of the Lamb and word of their testimony. The more you call on the LORD and the blood of Jesus, the more you speak, greater things than these shall the LORD do through you and in you. You would have been dead by now but it is He who snatched you from the devil's clutches. You are no longer that person. You are a new creation.

In your prayer life, every time call upon the name of Jesus and the blood of Jesus. The Bible also says if the LORD is on your side who can be against you? No weapon formed against you can prosper. Whether the devil brings sickness, attacks, he has already been defeated. We are blessed who are in the covenant of the LORD. We know the enemy's tricks are few.

Remember it is no longer you that lives but Christ who lives in you. You are no longer the one under water, you are no longer the one who caused accidents and caused much bloodshed. You are new person in Jesus thru His blood. So wherever you walk let your transformation be in your mind. The devil is trying to hold your mind. He cannot get your spirit because you are saved, so he tried to do things that will affect your mind and make you think you are guilty.

Many years the LORD saved me. I have gone through attacks. In Webuya Kenya in 2002 there was a lady called Daphne Muwanguzi. She was initiated into being a demonic agent at age 7. The enemy does not care how young you are. She has a very similar testimony to yours. They were based in Nairobi and they would astro-travel to meetings in South Korea and Bermuda Triangle. She owned a three storey building in Nairobi, and had a land cruiser, beautiful car by the time she was 23.

Time came when they asked her to sacrifice her mother. They told her to write her mother's name on a screen and they would summon her spirit and kill her through stabbing that screen. Her mother was born again and did not have an idea that her daughter was involved in this high level Satanism. She was fasting and praying at that time and they could not kill her. Daphne was told she would die instead. That is when she run to the church. It was a very long and intense battle to bring deliverance. She laid 7 eggs during the deliverance which lasted for 18 hours; from 6am to midnight. She even produced a tree. She changed into a snake. She was big and when the deliverance was finished, she shrunk in size back to normal. Even her size was demonically projected.

When she went to look for her place the building caught fire and there was nothing remaining there. The houses she had acquired caught fire, the car disappeared and she had nothing. She had no uterus when she was in the kingdom of darkness. Today she has a baby boy.

What you testify (Cosmas), and what you have seen you are not the only person. GOD is doing this all over the world. He cannot allow His seed to die. What is born of the spirit overcomes the world. The devil tries to rule here but has no power here. He came to steal kill and destroy. But now because of the sacrifice of Jesus, you know the truth that sets us free.

Every step you walk, live a life of prayer, fasting, reading the word and submitting to good discipleship. Believe in the LORD for the total restoration of your family including parents. Just always ask the LORD to use you for His glory, and cover you with the blood of Jesus.

You used to get revelation and power from demons, and dream of demons but GOD will show you many mighty and powerful things. You need your mind changed and delivered completely. Nobody will do it for you. You have to renew your mind by what you see, read, listen to, and company you keep.

You have been traumatized spiritually and you need to continue in the LORD. In your prayer asked the LORD to help you to focus on the word. The Word of God is powerful. Spend time reading the gospels. Study the word and you will find that your mind is being renewed. Ask the LORD to seal you off from everything that belonged to the devil. You are not fully protected that is why you find that some demonic agents have access to you.

Pray like this, I black list them and their number from my spirit, through the blood of Jesus. I disappear from them and soak myself and hide in the LORD Jesus. Claim what belongs to you. Disconnect yourself from what is not yours. What you confess is what GOD hears and what you hear. You are now in spiritual warfare.

You need to be more sophisticated than when you were in the other world. Because Jesus is on your side. You know that when you are a guerilla general in the bush fighting against the government, when government takes you they make you field marshal. You were in lowest rank in the kingdom of the enemy but in the kingdom of GOD you are highest rank. You are an asset now because you have operated in and seen the workings of the kingdom of darkness so you can expose their work and help the Body of Christ to understand more on the power of being right with GOD, prayer and faith to combat the wickedness from the kingdom of darkness.

There are millions and trillions of angels but for the enemy they could be counted. The angels that protect you, the blood of Jesus cannot be counted. Victory is ours who believe in the LORD Jesus Christ.

Let your mind be set on the word. When satan took Jesus on the tall building he said all glory of kingdoms was given to him and he could give it to Jesus. What was he trying to do? Play with the mind of Jesus and entice him with positions and the possessions. But what did Jesus do? He countered what satan said with the Scriptures. Satan tried his tricks but Jesus countered his tricks with Scripture.

Jesus' mind was focused on the scripture and on the kingdom and satan lost. When your mind drifts off the word, then there will come deception. The Bible says, from the beginning he was a liar and he is father of all lies. So you ought to know the truth and that is the Word of God, so you counter his lies. Jesus is the truth and His blood is a weapon. Walk in these and enjoy freedom. All other things will begin to fall in place.

GOD will make people come to you, open doors you don't know and give you work you don't know. Because his ways and our ways are not the same let your heart not be troubled. The enemy will always trouble our heart. People go to him for help because they are troubled in their heart. But when we are in the LORD he says, I will supply to you according to his riches in glory. Whatever you need ask the LORD. The enemy is defeated even though he tries to attack us. We tell him he is defeated. We thank the LORD. GOD bless you.

Tomorrow we shall speak and see what the LORD has said. People will bless you in this season and GOD will touch men and women of GOD in this land and you will be blessed.

CAROLE/BENJAMIN STORY

I did not know who Carole was but I came to know this person called Carole by the time they were married with Benjamine Oteka. I did not know him also but he was linked with one pastor from Lira who was one of the agents under me. He was a fake pastor who uses powers from the kingdom of darkness to do his ministry. Benjamin connected with him and the man told him about me. He wanted to link with me to pick powers to take over what Carole had especially that place called House of Hope, the school, property and other stuff in FAVOR ministry.

That man who is called James from Lira convinced the pastor Benjamin to join power of darkness so that they give him authority to rule over what Carole had.

That false pastor in Lira, James, said you have a leader. He is a very short small man you cannot even imagine he is the one who can lead you. Go to him. Benjamin was brought to me, to my home and I am the one who connected Benjamin to Akim. Up until now he is still an agent but most people don't know that. He is planning to do anything to me but I know I am protected.

There was the time Benjamin tried to deceive me, he called my name in a crusade ground. He called my name that it is okay for me to go to him but I know that Benjamin is a dangerous man. I cannot meet him. If I meet him he will do something wrong to me. That is why I fear him.

He is sending people with letters to scar me that he will kill me because I am telling secrets about him. Before when they went to marriage, they went to Kampala to get a civil marriage.

It was a contract in December 2008 and I was there like a witness on the side of the devil (by soul travel he got there and was not visible to them but was in the room as a witness). That time I was using him to sending him to fight some true pastors. In exchange he sent me to fight with those who are working in the ministry like Francisco. I told you that I tried to kill Francisco three times. Benjamin was the one sending me to this man.

Even by now, if I tell you, before, this place was not like this. By the time Carole was with that man the thing that was happening was different. He would tell me, When we go inside the house come and pick her mac, pick some money and her bag. I came in and picked the mac, 50,000 shilling note and her bag. We took them under water to Akim the 12 headed giant chief demon.

He used that money [as a contact point] to block every ministry from outside helping her ministry. The demons used it to push away any people who had been supporting her ministry. By the time I was working with the demonic world, if I pick even 1000 shillings from you, that is meant to destroy all your business or your job. That 50,000 that man Benjamin said, I take from her to Akim, he should use it to block any money coming to her [ministry].

There are days when I could come into this house and pick whatever he told me to collect. There was a time just in January when I came here and he told me where to go. I went into the rooms here and I picked everything. All the laptops, camera and there were some visitors here.

I came with 4 spirit agents and we came in here. Nobody could even know how we opened the door and entered the house. There was a guard but we just passed him. He was put to deep sleep. We passed through the gate, we opened the door which is not usually even used. We picked what we wanted and when they woke up they were saying that thieves had come. Nobody could know it was me and those four spirit agents who came invisibly and stole the things.

When she was in this region, everywhere Carole moved I was following her. By the time they fell out with Benjamin, sometimes she would go to Sudan, and I would follow her. I even told Benjamin not to go to Sudan [he had no territorial right to go there spiritually] but he forced himself to go. He was attacked at a certain place and was almost killed if I had not come to rescue him. Those of SPLM attacked him but I rescued him.

He knows that I was the one who saved him from there. Sometimes he praised me when I was working with the demon world. Before that time I was doing his job, and he told me that I should come and kill this woman Carole. I could not touch her. She has the power of GOD. Every time I got when she was praying and covered in the blood of Jesus so that demon spirits could not even touch her.

Even when I saw her moving around, I could not touch her she was always really, really praying. So I could not do anything to her. I stayed that way for a long time.

Suppose she was not a powerful woman we would have destroyed all this ministry and blocked all money coming and taken from her everything. One of her handbags is still under water with the small computer.

By time the trouble got so much in the marriage, they were keeping the orphan home. I went there. I can get the security guard and I pass through they cannot see me. He had said I should pick something there. So I went with some demon spirits and we picked the vehicle, a tractor. I tried to pick them but there was no way to get it. She was in prayer somewhere and the power of her words kept us away. They were hitting our bodies. We could not continue doing those things.

The things we wanted was to destroy her and destroy this ministry but it was not our plan. All those [assignments] came from Benjamin. He told us and we are told we have the power we come and do it. Sometimes he tell me at the moment if he enters with her in the bedroom I should come and take what she is thinking. He would say, You get what she is thinking destroy her.

I enter the room and stand beside her bed and meanwhile I am like a snake. Sometimes she dreams her husband changed into a snake. I can stand before you, and change into a snake and cause you to copy what I am doing [it was me projecting that form]. If I stand before you, you can become a snake and a person will touch you and become like a snake. If I came inside her I stand before the bed and she start dreaming that she is sleeping with a snake meanwhile it is real and it is serious. I know that GOD really loves her because the way I saw I saw her, I was even thinking GOD really loves her and hears her prayer. If not, we could have destroyed her ministry and killed her.

Sometimes I fear people but there is a lot more which I shared with Francisco. I could not even share some things with Betty. I have so many things that were happening. I know by the time some of those things were happening she [Carole] did not even fear.

One day I need to send someone to Benjamin that what he is doing is wrong. It will not end well. I know that at the moment, he is still an agent and I can identify any agent. When I reach near someone who is an agent, I can feel the spirit that is on them. I recognize that spirit. There are agents everywhere, they own restaurants, wholesale shops vehicles etc. When they see me they sneak away. If I got a person who sees me come near them and they know they are agents, they sneak away.

One day I was with Francisco and we entered a hotel with him where he likes to eat. We entered and the boss was sitting there. The boss saw me and started to run away. She has got her wealth and power from under the water. She was an agent. Sometimes things come to scar me and warn me from inside my house to stop revealing all these things.
